Commission for expert evaluation of applications, based on its records, determined after the second work meeting, and upon the notice of the Public Company Sarajevo International Airport, that upon preparing the recapitulation for the purpose of monthly reporting they noted that the weekly frequency for Stockholm destination is one flight, which is pursuant to the public call for charter operators but not regular operators. Taking into consideration that NORWEGIAN AIR AS is a regular operator, it is determined that the public call criteria for awarding the incentive have not been fulfilled for the Stockholm destination. Pursuant to the above, the decision was made as stated in the ruling.
